

WHO WE ARE

We are an independent, woman-owned and operated consulting firm comprised of highly intelligent, compassionate, motivated team members, who constantly strive to produce industry enriching solutions.

Cahill Consultants Inc. provides product safety and regulatory compliance assistance to companies that design, manufacture, distribute, retail, and import/export products into the global stream of commerce.

Cahill Consultants has been recognized as an industry leader in product safety consulting by many government regulators around the world, including the United States, Great Britain, the European Union, China, and Australia.

**“ CAHILL CONSULTANTS HAS BEEN
RECOGNIZED AS AN INDUSTRY LEADER
IN PRODUCT SAFETY CONSULTING ”**

OUR CLIENTS

- Any company that manufactures, distributes, imports, retails, or otherwise sells products anywhere in the world
- Companies involved in a product recall or product safety issue

WE PROVIDE CONSULTING EXPERTISE FOR THE FOLLOWING INDUSTRIES:

- Aerospace
- Agribusiness
- Automotive
- Aviation
- Childrens Products
- Consumer Products
- Food and Beverage
- Life Sciences
- Nutraceuticals
- Pharmaceuticals
- Toys

PRODUCT RECALL PREPAREDNESS

We can assess an organization's product recall preparedness to help avoid product recalls and limit damage in the event of a product recall. We provide services in the following areas:

- Product Recall Manuals
- Product Recall Training
- Facility Reviews
- Supply Chain Risk Assessments
- White Papers
- Six Sigma Training
- Lean Manufacturing process control reviews
- Traceability protocol reviews
- Issue identification and escalation protocol reviews
- Investigation process control reviews
- Labels and labeling procedure reviews
- Corporate governance training for C-Suite employees
- Email and document protocols to avoid litigation

PRODUCT RECALL DEPLOYMENT

Cahill Consultants provides a broad range of product recall services, which include:

- Issue identification (assessing recall scope, identifying the affected product(s), and investigating the root cause of a recall)
- Assessment of company and supplier compliance with government regulations
- Facilitation of the deployment of a recall, including information management systems, which may include call centers, logistics centers, web registration, media communications and product destruction

RECALL RECOVERY SERVICES

Once a recall has been conducted, we can assist with completing regulatory reporting, monitoring product reintroduction, notifying all stakeholders when the recall is complete, and review "lessons learned" to help limit future product issues.
